Percussion Materials List

To: All BHS Percussionists 2017-2018

From: Mr. Dunn and Ms. Roof

Recently we have found many broken and unwound mallets in the percussion section. Because of this, there are not enough mallets for percussionists to use during daily band class. In an effort to have students take care of equipment and to have proper materials for class, each student must have a stick bag with a variety of mallets and snare sticks that they have purchased on their own. If you take care of the stick bag and mallets it should last for many years.

Additionally, in order to be a successful percussionist at Baldwin High School every student is required to play ALL percussion instruments. These include, but are not limited to, non-pitched percussion (snare drum, bass drum, tambourine, cymbals, triangle etc), timpani, mallet instruments (xylophone, marimba, vibraphone, bells).

Please have these items by the first day of school September 5th, 2017. Not having a stick bag will negatively impact the Class Participation grade. If there is a financial hardship, please contact us prior to the start of the school year.
